

GTO SIGNS THE SYSTEMS DEPOT AS NEW NATIONWIDE DISTRIBUTOR

World's Leading Access Control Supplier Now Handling GTO/PRO Line

Tallahassee, Fla. – Mar. 27, 2006 – GTO, the makers of the GTO/PRO professional series of swing and slide gate openers, has signed The Systems Depot as a nationwide distributor of its GTO/PRO line of automatic swing gate operators and access controls.

The strategic partnership between GTO and The Systems Depot will be key to introducing the first complete DC low voltage gate operator and access control product line to security dealers in the United States.

“With its extensive distribution system around the United States and reputation for outstanding service, The Systems Depot is an excellent partner in getting our GTO/PRO operators and access controls to professional security installers,” said Brad Hollis, GTO/PRO director of sales. “Security and convenience continues to be the driving force behind our growth and it’s why security dealers are constantly asked to take security beyond the front door and begin to address the perimeter of the property.”

“GTO is excited about the new market growth opportunity this will provide both of our companies.” said Kevin Peaden, GTO’s vice president of sales.

GTO/PRO gate operators and accessories can be found through dealers across the United States and around the world. For a dealer near you or more information about GTO/PRO, go to www.gtopro.com or call GTO, Inc at (800) 543-GATE.

About GTO

Founded in 1987, GTO, Inc. is an American manufacturer and leading provider of turnkey access control system solutions for residential, commercial and industrial applications. GTO/PRO manufactures and distributes automatic gate operators and accessories for single and dual chain link, farm tube, panel, vinyl aluminum, wood and ornamental wrought iron fence gates to the professional installer market throughout the world.

About The Systems Depot

The Systems Depot is headquartered in Hickory, N.C. with 11 branch locations across the U.S. The company stocks products in security, fire alarm, CCTV, access control and many other types of low-voltage items from the world’s leading manufacturers. All Systems Depot locations offer free system design and are stocked with inventory for immediate pick-up or same day shipping. The Systems Depot also features “Depot Connect,” an e-commerce/secure internet site for easy ordering.

Editor’s note: high quality photos of the GTO/PRO series of automatic swing gate openers and accessories are available via e-mail.
