

**MIGHTY MULE RECEIVES HANDYMAN
SEAL OF APPROVAL**

- - - - -

**Approval Is Based On Do-It-Yourself Club Members
Installing A Mighty Mule E-Z Gate Opener**

Tallahassee, Fla. – October, 2006 – GTO, Inc, leading manufacturer and provider of the Mighty Mule E-Z Gate Opener automatic swing gate openers and accessories, has been awarded the Handyman Club Seal of Approval.

The Handyman Club Seal of Approval is based on reports by club members who have installed a Mighty Mule E-Z Gate Opener. A detailed report by the do-it-yourself Handyman Club members will be published in Handy magazine early next year.

“Because the Mighty Mule is a do-it-yourself product the Handyman Club’s Seal of Approval is the perfect venue for our product,” said Kevin Peaden, vice president of GTO sales. “A do-it-yourself Handyman Club member is the same kind of man or woman who would feel comfortable taking on a job like installing a Mighty Mule E-Z Gate Opener on their driveway.”

“The great thing about the Handyman Club is that product reviews are done by fellow members, not the magazine staff,” said Greg Runyan, product test coordinator for Handy Magazine. “In fact, almost 90 percent of our more than one million members indicated that a Handyman Club “Member Tested & Recommended” seal would influence their purchase decision.”

GTO’s Mighty Mule automatic swing gate openers and accessories are very popular for use on residential, farm, ranch and rural homes and offers home owners an affordable, do it yourself, easy to install option for security and convenient access to their property.

About GTO

Founded in 1987, GTO, Inc. is an American manufacturer and leading provider of turnkey access control system solutions for residential, commercial and industrial applications. GTO manufactures and distributes Might Mule automatic gate operators and accessories for single and dual chain link, farm tube, panel, vinyl, aluminum, wood

and ornamental wrought iron fence gates to the do-it-yourself handyman throughout the world.

Editor's note: high quality photos of the GTO automatic swing gate openers are available via e-mail.
